

December was SANTA time at ASHTA Chemicals!

ASHTA teammates had a great time at Breakfast with Santa on December 12th. The kids had a great time in the bounce house, making crafts and, as always, loved having a visit from Santa!

ASHTA supported the community through the **Project Santa Claus** for children who are in the care of Ashtabula County Children Services. ASHTA Volunteers contribute monetary donations, decide on a budget for each child, obtain the name/gender/age of various children (including their specific wish list) from Children Services, shop for their specific items and then deliver all the gifts to our contact at Children Services.

As Tania Burnett, the Executive Director of the Ashtabula County Children Services put it:

“On behalf of the Ashtabula County Children’s Services, thank you for your generosity in providing gifts at Christmas. It meant a great deal to our Board and staff to have businesses in our community get involved in making the holidays a little brighter for these children in care of the agency.”

Employee of the Month
January 2016
Nick Tomba

Nick Tomba, a Process Engineer, has been with ASHTA for two years. He was nominated for this award for his investigative skills, technical knowledge and attention to detail that has directly led to substantial cost savings for ASHTA in addition to improved operations with respect to production of potassium hydroxide.
